The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless --

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-4 are rejected under 35 U.S.C. 102(b) as being anticipated by O'Neill et al. U.S. 5,268,181.

See column 2, line 35 through column 3, line 26, examples 1-6, claim 1. The scope of applicant's claims, which recite a nicotinic acid formulation, read on the prior art. The claims are directed to a composition however no distinct formulation components are claimed which would possibly distinguish applicant's formulation over the prior art. The O'Neill et al. niacin formulation would inherently meet the stair-stepped absorption profile of applicants, since the formulation claimed is the same.

Claims 1-4 are rejected.
